

Highbrook Business Park, East Tāmaki

Highbrook coworking space

*A new way
to work*

As the last year has shown us, the traditional office set-up isn't for everyone. Coworking spaces are alternatives – and we're bringing our version to Highbrook.

The innovative new space will have all the amenities and conveniences of a standard office. It will be designed and managed by experienced coworking operator, Johnson Corner, with an estimated opening date of early-mid 2022. You'll be able to choose between a bustling open-plan area, or quieter, private office space. It's a great option for start-ups, businesses looking for a satellite hub or anyone keen to avoid the long city commute.

If you already have offices at Highbrook, the new space could let you expand or offer your staff a different working environment.

Highbrook Business Park, East Tāmaki

Here's what the new space will provide:

- + High-quality office amenities and services
- + High tech, reliable IT systems
- + A dynamic community feel
- + Flexible options to suit organisations of all sizes
- + A range of meeting and event spaces

If that sounds like it would suit your business, get in touch:
