HIGHBROOK CROSSING

Highbrook Crossing
Garden Party

ZM Dollar Dome

Winners of the festive feast from Kagura and
Hollywood (Starship Radiology & Whare Tiaki)

Welcome to Highbrook

 [highbrookcrossing](#)
 [Highbrook Business Park](#)

Over 400 people came together to celebrate the grand opening of the stunning new **Canopy at Highbrook Crossing** in December. **The Garden Party** marked the official opening of the greenhouse inspired canopy, with teams enjoying the beautifully redeveloped space alongside free lemonade and ice cream, live music and giant outdoor games. We hope you love the new greenhouse canopy as much as we do, and that you enjoyed relaxing, dining and collaborating in this vibrant public space.

We also brought back the high energy **ZM Dollar Dome**. Participants stepped inside and grabbed as many tickets as they could in just 5 seconds—the more they caught, the more they won.

There was over \$1,000 in Highbrook Crossing Cash up for grabs, plus ZM merch, Urban Collab Tees, a Ryobi One Hybrid Fan with battery pack (worth nearly \$250), and more!

And a big shout out to our **Hollywood and Kagura Festive Feast** winners, the teams at Whare Tiaki and Starship Radiology each won a \$300 festive lunch!

Wednesday 26 February
Radio Hauraki is rolling into Highbrook Crossing with tunes, tenpin and top vibes. Bring your teams along - the more pins knocked down, the better the prizes. There are big rewards on offer, including a Hoover PowerScrub XL Carpet Cleaner worth over \$400.

Autumn at Highbrook is shaping up to be full of colour, energy, and community spirit.

We're kicking off the season with **Flava's Big Poppa**, bringing big beats and lunchtime vibes to the plaza. You can expect throwbacks, giveaways, and that classic Flava atmosphere that always gets people moving.

Olea Catering will also be rolling out their autumn promotion, serving up fresh seasonal flavours and great deals — the perfect excuse to treat your team or elevate your next meeting. And for those who love a bit of friendly competition, the **Highbrook Fun Run** returns, inviting runners, walkers, and everyone in between to get outdoors and enjoy the Highbrook Parklands with your team.

Be a winner at the Flava Big Poppa

Join the Highbrook Easter Egg Hunt

Mother's Day Sunday 10 May

What will April's Energy Station bring?

April is packed with experiences to brighten your workdays. Our **Easter Egg Hunt** will send people exploring around Highbrook to score themselves some Easter treats, and a few extra surprises — a fun and nostalgic break in the day.

The popular **Flava Energy Station** is also back, with Moodi offering refreshments to pick you up and keep everyone fuelled through the day.

Early April, the **Tuck Shop Morning Tea Shout** offers classic treats, fresh baking, and a cosy moment to brighten the cooler days.

To celebrate the many mother figures in our community, we're running a special **Mother's Day competition** with thoughtful prizes up for grabs. And rounding out the month, **The Banker's Shout** will bring the business community together for relaxed networking, great hospitality, and a chance to unwind.

See you at **Highbrook Crossing!**

Open Country Dairy expansion

Open Country Dairy is set to expand its presence at Highbrook, reflecting a period of strong growth and closer integration with its parent company, Talley's Group.

Open Country Dairy's space requirements highlight the scale of its growth. In June 2014, the organisation occupied approximately 616 sqm. Today, the footprint has been expanded to about 1,700 sqm.

The company will extend its first-floor offices within Building B at 8 Business Parade, enhancing capacity for its expanding teams and operational functions.

Model building sets career foundations for Jason Gillard

From an early age, Jason Gillard loved making models. Starting with store-bought kits, he soon began developing his own techniques and designs for intricate models of houses.

"I had it as a hobby on my CV, but I thought I was never going to find anything."

It all came together when Jason started sharing his models on YouTube while also working with Poly-emp, an employment and advisory service for people with learning difficulties. Poly-emp introduced Jason to Goodman in 2018, with the aim of expanding Jason's house model making to warehouse

model making. "Model making was a dream job," Jason enthuses.

Goodman properties in perfect miniature

It's difficult to sell a space that only exists on the plans, a challenge Goodman's sales and marketing team was facing every day. Jason allowed prospective clients see, in detail, what their new office or warehouse could look like.

Eight years later, the need for architectural replicas has slowed down, but Jason's career with Goodman is still ramping up.

Delivering the Highbrook magazine to customers

Volunteering for KiwiHarvest

Growing along with his career

As Fleet Valet Supervisor – a role specially designed for him – Jason spends one day a week detailing Goodman's company vehicles. That in-office work meant lots more interaction with the wider team, and as a person with autism, Jason says that was a challenge at first.

"Now I'm communicating with everyone, and I know everyone so well here at Highbrook."

Jason continues to grow. Several years ago, he became a Goodman volunteer driver assistant for food-rescue charity KiwiHarvest at Highbrook – an organisation Goodman has proudly supported for more than a decade.

More recently, he's added another string to his bow – delivering the Highbrook quarterly magazine across the entire business park. Visiting each and every customer – so if you meet Jason say Hi. He loves to chat and get to know you all better.

Jason is grateful for the support Goodman has given him and

understandably proud of what he's achieved.

"Guidance is a big factor for me. Goodman makes sure I have everything I need. And now I'm like, wow... I've never thought I'd do this all on my own.

"It's such an honour to be part of Goodman. I want to keep staying here, because this is a place where I feel supported."

That gratitude goes both ways – the Goodman Highbrook team enjoy having Jason on board. Goodman Portfolio Manager Robyn Barfoot says the company is proud to support team members like Jason, who bring their best to work.

"Jason is enthusiastic and keen to learn," she says. "He's growing leaps and bounds as he gains more experience and knowledge of the business. His eye for detail means he's doing an excellent job delivering the brochures, updating the posters, and making sure we have super clean cars. He really is a joy to work with".

Meet the team at Highbrook

Highbrook's success is shaped by a dedicated group of property specialists committed to delivering an exceptional experience for every customer on the estate.

At the helm of the portfolio are Robyn Barfoot (Portfolio Manager) and Thomas Papesch (Asset Manager). Together they bring more than 30 years of combined experience, much of it centred right here at Highbrook. Their deep knowledge of the estate and its customers ensures continuity, strategic direction, and a consistently high standard of service.

They are supported by a skilled team of Property Managers and Building Managers, each focused on a specific group of customers across Highbrook to provide personalised and responsive support. We are also pleased to welcome Rob Tanner, who has recently joined us as a Building Manager. Rob steps into the role previously held by Chris, who has moved on to opportunities within the public sector. Rob brings fresh energy and a strong commitment to customer care.

A familiar face to many is Shane Everett, the creative mind behind Highbrook's stunning landscaping. Shane has been with Goodman since 2007, and his vision and attention to detail continue to shape the vibrant green spaces that make Highbrook unique.

No introduction to the Highbrook team would be complete without mentioning Joy Ape, who manages the Customer Services Desk. Joy plays a crucial role in supporting all Highbrook customers and ensuring day-to-day needs are met with efficiency and care.

For any building-related issues, your first point of contact should be:
